

Pipette Starter Kits

Outfit Your Lab with XLS+

14 different kits

Starter kits are available in many configurations for researchers who need manual single channel pipettes, manual multichannel pipettes, or single channel electronic pipettes. With extensive choices, Rainin has a kit for your requirements.

LTS or universal – you choose

All kits are available with either the Rainin LifeTouch® System (LTS®) or traditional universal-fit tip/shafts. LTS offers the ultimate in hand comfort and performance, while universal-fit is common across all pipette brands.

Total comfort

With sure-fit handles, contoured finger-hooks, lighter springs and low-drag seals, you can comfortably use Rainin manual and electronic XLS+ pipettes all day. The sealing system on XLS+ pipettes delivers a plunger stroke that is smooth, precise and requires less force.

Total control

Every Rainin XLS+ starter kit comes with a Rainin SmartStand to help manage your pipette inventory. Instantly and automatically, SmartStand displays the calibration status, service dates and more for any XLS or XLS+ pipette you set on it.

XLS+™ Starter Kits

Loaded with Options and Features

Starter kits are a cost-effective way to quickly equip your lab with premium Rainin XLS+ pipettes. We blend innovation with cutting-edge engineering and ergonomics to deliver highly reproducible results with exceptional comfort. Rainin has a starter kit to meet your lab's needs.

All Rainin XLS+ pipettes are equipped with RFID tags for enhanced security, state-of-the-art inventory control and calibration tracking. The Rainin SmartStand, which is included with all starter kits, uses the RFID chip to track and manage the calibration status and usage data for all of your XLS pipettes. SmartStand is also a charging base for electronic models.

XLS+ Starter Kits

Boost Your Lab's Performance

Many configurations to meet your exact needs

- Single channel XLS+ pipette kits
- 8- or 12-channel XLS+ pipette kits
- E4 electronic XLS+ pipette kits
- SmartStand included with every kit
- LTS LiteTouch System or universal fit

Starter Kits are a quick, easy and affordable way to put the precision and reliability of Rainin XLS+ pipettes to work in your lab. All kits come with a Rainin SmartStand, which displays calibration and service information of any XLS or XLS+ pipette.
